Re: Marcus Belton's request for a motion under 18 U.S.C. 3582(c)(1)(A) due to COVID-19 and comorbid conditions

On June 6, 2020 and June 16, 2020, I submitted a request for compassionate release pursuant to Pursuant to Program Statement 5050.50, *Compassionate Release/Reduction in Sentence: Procedures for Implementation of 18 U.S.C. §§ 3582 and 4205(g)*. I requested the Director of the Bureau of Prisons to make a motion to reduce my term of imprisonment under 18 U.S.C. 3582(c)(1)(A) due to extraordinary and compelling circumstances which were not reasonably foreseen by the court at the time of sentencing. I have not received a response.

I am requesting the BOP to make this motion because I am at particular risk for serious injury or death due to the coronavirus (COVID-19) pandemic and my pre-existing health conditions.

EXTRAORDINARY AND COMPELLING REASONS

MEDICAL

In April 2020, I tested positive for coronavirus. I then spent more than two weeks in the hospital.

I have been diagnosed and receive treatment for the following conditions:

- Hypertension, benign essential
- Secondary hypertension
- Bronchitis
- Chronic kidney disease, stage 2
- BMI: 33 – 33.9
- Mononeuropathy of lower limb

PROPOSED RELEASE PLANS

Where I will reside: I will live with my mother, a retired hospital worker, and wife in my mom's duplex. This will give me room to self-quarantine and isolate.

How I will support myself: Before prison, I received SSI for a medical issue. Because I'm fully disabled, I would receive SSI again.

Where I will receive medical treatment: Highland Hospital in Oakland, California.

How I will pay for treatment: Through SSI, as well as assistance from my mother, wife, and other family members.

CRIMINAL HISTORY

I have not been convicted of any violent offenses.

Date	Offense	Sentence
06/14/1990	Reckless Driving, misdemeanor	24 months probation, 5 days jail
05/07/1992	Carrying a Concealed Weapon, misdemeanor; Evading Peace Officer, misdemeanor; Hit and Run, misdemeanor	36 months probation, 210 days county jail
07/20/1992	Unlicensed Driving, misdemeanor	18 months court probation, 2 days county jail
07/31/1996	Possession Controlled Substance for Sale (Cocaine Base), felony	3 years probation, 2 days county jail 10/30/1996: Probation modified to include 6 months county jail 09/17/1999: Reduced to misdemeanor
03/16/1995	Unlicensed Driving, misdemeanor	Court probation
12/21/2000	Use of a Communications Facility to Commit a Drug Felony, felony	Four years custody in BOP, one year supervised release 11/27/2002: Supervised release revoked, 10 months custody in the Bureau of Prisons, released from custody 01/03/2003: Failed to self-surrender
07/18/2003	Failure to Surrender for Service of Sentence, felony	10 months custody, no supervision to follow.
01/10/2005	Possess/Purchase for Sale Narcotic/ Controlled Substance (11351 HS), felony	5 years probation, 8 months jail 6/11/2007: Probation revoked, 3 years prison 05/17/2013: Post-Release Community Supervision Program terminated early.

UNRESOLVED DETAINERS

None.

SUPERVISED RELEASE VIOLATIONS

My supervised release was revoked on 11/27/2002.

DISCIPLINARY INFRACTIONS

None.

LENGTH OF SENTENCE AND AMOUNT OF TIME SERVED

I was sentenced to 240 months, and I have served 81 months.

INMATE'S CURRENT AGE

48

INMATE'S AGE AT THE TIME OF OFFENSE AND SENTENCING

43.

PROTECTION TO THE PUBLIC

While in custody, I have completed anger management, drug abuse, and career re-entry classes. These courses have taught

Sincerely,

Marcus Belton

AFFIDAVIT/DECLARATION

Affidavit of Marcus Belton

I, Marcus Belton., After being
"Duly Sworn", deposed and says as follows

**DECLARATION OF MARCUS BELTON IN SUPPORT OF MOTION FOR
COMPASSIONATE RELEASE**

It is absolutely impossible for me to safely "socially distance" myself from other inmates or staff members here at USP Lompoc due to the facility design/construction, current overcrowding/excess population, and local policy and COVID-19 programming requirements, all which prevent me from mitigating my risk and potential exposure to COVID-19 programming.

FACILITY DESIGN

CELL

Institutional cells are designated as "single man cells" due to their size, approximately 10 feet square of useable floor space however, I may be soon required to double bunk and remain there during the outbreak. Obviously it is impossible to socially distance inside a 6'x9' cell occupied by two people.

TIER

The building has a ground floor and two additional tiers on top of the ground floor (three tiers total). The tiers have approximately three feet of walkway outside the door front, which creates a horse-shoe walkway leading by all cells (19 on one side and 22 on the other). The narrow tier walkway brings you directly past the cell door fronts which have open window designs-were inmates stand all day to see the TV in the dayroom, literally trying to get their head through the door

to see it; or they stand there yelling to other men, spittle flying, ear drums being rung by the yelling straight into your ear as you walk by. These men are in a neuritic state, feigning contact, communication and social intercourse; the noise/yelling/door front is so bad, so loud, so constant, I am forced to wear ear plugs all day, and they only provide limited relief.

CHOW

During chow release, the officer opens the controls at the end of the tier-one side (rang) is opened; approximately 25 people then bolt out of their cell down the narrow tier, tight formation, some with mask on, some haphazardly wearing it, others not caring-and we walk down stairs then back up and around the horseshoe tier, past 22 cells with men standing, breathing, yelling directly through the window-having to pass at 1-2 feet away, maximum. No one wears their mask in their cell. There is no way to social distance during chow service; the men do not stay spaced even if I create space, someone soon cuts in and are in my immediate proximity.

SHOWER

Each tier has a tiny shower room with three shower stalls and entry area which is approximately 6x8 feet. The window is welded closed, the exhaust port in the ceiling has a steel plate riveted over it. There is no ventilation inside the shower area. The ceilings drip with large water droplets due to 100% constant humidity. There is black mold on the walls, ceiling and shower curtains. The showers are right next to each other-no ability to socially distance in the shower outside which drying off and any cough/sneeze droplets is immediately caught into the humidity and condenses and rains down on you from the ceiling. There is no proper cleaning; no bleach or any, pungent, powerful

cleanser being used. People catch staph infections, athletes foot reguarly. The floor remains a constant puddle due to poor tile work which doesn't channel water to drain. The shower curtains are in terrible condition (torn, moldy, filthy).

COMPUTERS (In Housing Unit)

There are four computers in housing unit; one on the ground floor at the base of the stairs where approximately 130 men directly pass to get back to their cells, constantly throughout the day. The other three are located on the second tier loft, tightly

Packed together, forcing us to sit shoulder to shoulder when sending emails/using system. These computer terminals are rarely cleaned/wiped down. There is no ability to socially distance while using computers or to be at a sanitized unit.

PHONES

We have four phones; obviously they are in high demand people run to the phones, pack themselves in tight lines as they anxiously wait to use the phone, subconsciously believing "the closer I am to the phone; tighter I am in line, the better my chances are at getting a call" symbolically, these men compost themselves like nervous hyenas foraging on a carcass after going without food. In addition to being unable to maintain social distancing while using the phone and waiting in line to do so- it is almost impossible to hear the dialed party due to all the yelling and anxious energy displayed in the housing unit. The phones are not sanitized after use and are not wiped down after every use; it is not possible to do it with overcrowding-nor is it logistically possible due to design and placement of phones on all tiers.

LAW LIBRARY

The legal research computers are placed in a tight circle in the center of the library and you sit right next to each other-shoulder to shoulder. Even if told to use every other one-the circular design seating has you within 4 to 5 feet of each other. The inmates are just happy we made it (finally) to the law library (we are only allowed 1 hour a week) in the law library, thats 5 hours a month. Same scenario with out dated (1980's) typewriters-they provide some distances, but not six feet and a saranwrap plastic sheet is ineffective if it is not changed after every use.

MASK USAGE

Local memoranda states that mask/face coverings will be strictly enforced, but that is not true. Both staff and inmates regularly are observed without coverings and I am unaware of any staff or inmates being disciplined or sanctioned for not wearing a mask. It is impossible to remain safe or socially distance oneself when you can't direct staff to follow the rules-or direct inmates to wear their mask-and trying to avoid conflict and contagion by creating distance between these people impossible. Nowhere to go; can't get away from them.

MEDICAL CONCERNS

AS of this writing, I have been diagnoses with COVID-19, there has been no follow up treatment no blood labs/panels have not been done by medical staff after having being diagnoses with high blood pressure, kidney disease, and bronchitis. It is impossible to remain safe or socially distance oneself when you can't direct staff to follow the rules-or direct inmates to wear their mask-and trying to avoid conflict and contagion by creating distance between these people is impossible, yes I have been diagnoses with COVID-19, but so was Muhammad Yysef, and after two weeks of his recovering from COVID-19 he was found unresponcive and died.

I, Marcus Belton do declare under the penalty of perjury that the foregoing is true and correct to the best of my knowledge and this Declaration/Affidavit was executed on September 21, 2020; in Lompoc, CA. 93436.

Subject: Re: Hospital
Date: Monday, September 28, 2020 11:18:12 AM

Good Morning

[REDACTED]

We as the family did not know that Marcus was sent out to the hospital until a inmate wife called me and said Marcus had left the prison sick and been gone so we should call to check on him. When we called we got no answer about where he was, or anything about Marcus catching covid 19.

We as family continued to call for weeks and got no answer the next week the unit staff manager lied to Marcus mother and said he was ok nothing wrong with Marcus the prison is just locked down to control the spread of the virus.

We did not learn about Marcus catching covid 19 until they allowed him to call home after not hearing from him for 5 weeks straight.

The only medical records I can get together would be from his primary care provider when he was home, dr Karl Konstatine in Oakland.

[REDACTED]

Thank You

Exhibit H

To Whom it may Concern:

I am Krystal Sipp-Glenn Marcus Belton AKA Samuel Glenn is my husband, we have been married 13 years and counting.

Praying that you grant us a second chance by granting Marcus an early release from his prison sentence.

Marcus has four sons who love and miss him dearly, we do not have any children together. In 2012 I became pregnant but choose to have an abortion out of fear of poverty and not being stable mentally. Now I'm 34 years old with a stable job at Tesla Fremont Factory and a solid foundation I'm ready and able to be a mom but my husband is incarcerated with a 20 year sentence. I'm begging that you give Marcus a second chance to be a model citizen by releasing him from prison and give me an opportunity to be a mom. Marcus seems different in the way he speaks, doing things if granted another chance. He also knows that he is getting older and his health is not what is used to be. Marcus has always had big problems health wise especially with his blood pressure.

We as a family is ready to get him the help he needs to get back healthy, get a job and help with his mother

who is very sick and ill. We as a family have notice and all have talked about the level of patients he has gained since being incarcerated. Marcus has a huge family and they are a close knitted and stick together, watching over the years how close they are made me close with my family.

It was so tormenting when Marcus tested positive for covid-19. An inmate from the prison called me and said "Marcus was rushed out unit taken to hospital outside facility". Me and several families called Lompoc to get information but was told everything is confidential no information about his well being was given. Four weeks later we finally got a call from Marcus saying he indeed tested positive for covid-19 and that his breathing was still not normal. I am so worried about his state of health because of the list of hereditary issues and his own health problems. More so than ever now. He knows he could have died in prison this time around and that I know is what change him this time around. Thank you for reading.

Krystal Sipp Glen
~~Krystal Sipp Glen~~

9-24-2020

My name is Saheed Glenn I am 20 years old, Marcus Belton is my dad. I miss my dad everyday. It's been 7 long years since he has been incarcerated. Our family is all we have and without my dad here with us, it has been rough on our entire family. We have lost my uncle (Lance) in 2015, grandpa (Dave) in 2016, my uncle (junior) in 2018, aunties (Lonnies & Quita) in January 2020 and 2 other close family friends. All due to health complications.

Please show mercy on my dad and forgive him, I notice a big change in him after realizing he could have and almost did lose his life battling covid-19, especially with his pre existing health problems. My dad has also shown me a difference by holding himself accountable.

I am ready for my dad to come home please. He has missed me graduating from middle school and high school because he was incarcerated. I started my music career which is just now starting to pay off financially. If given the opportunity for early release my dad will be hired as my assistant/manager immediately. So he will have a way to earn legal money and not look back at old habits.

I need my dad here for many reasons all the reasons a son should be with there dad, Structure, guidance, advice and love

Thank You
